About our Organization

Ann Arbor Gold Fastpitch, Inc. was established to provide young female athletes the opportunity to compete in softball at the highest level. We believe that teamwork, coupled with hard work and discipline, nurtures self-confidence and elevates self-esteem. We sincerely hope that valuable life lessons are learned and that lasting friendships are formed. We also desire that families be drawn closer together and that our communities benefit from our existence.

We cannot succeed in our goals for our daughters, for our families, or for our communities without the support of both dedicated parents and charitable local businesses. Our Sponsorship Program represents an important link between families who actively support their children and businesses that actively support their communities. We would like to express our gratitude toward both these parents and these businesses.

We are specifically indebted to the businesses that sponsor teams or players. Every sponsorship represents a commitment to improve our communities. Since these businesses have demonstrated this commitment, we urge all of our Gold families to take note of the establishments that have supported our daughters, and to make every effort to patronize these businesses in the future.

Thank you for your support of Gold Fastpitch.
